## Simplifying Customs Clearance into Mexico

Customs declarations exclusive to personal consumption goods, and not for marketing goods, simplifies clearance into Mexico. Any item that, due to quantity or value, is clearly not intended for personal use or consumption, but for commercial purposes, will not be considered for import.

|                                                                        |                                                                                               |                                                                                                                                                               |                                                                                                                                                                                                 |
